Richmond, Virginia
Volume 56
Turn your eyes upon the silence known as the past, and see familiar sights that once we knew in panoramic sweep.
then as the vast fingers of time releases them, let us view old sweet memories.
Can they replace this swift and ever-changing scene with their immensities?
I want to face the strange, the modern, and I do. It means the progress that man has always sought and this is good, for time cannot stand still . . .
... Then why must heart's treasures lie in the souvenirs we gathered through the sweet, unknowing years?

OF
Graduate Studies

In the beginning ... a new challenge ... college is ancient history ... very soon feeling old ... tired ... when do I sleep? ... tomorrow night I'll catch up ... too much to do now ... test in a week ... no more studying the night before ... 5 chapters to know!

... must find an advisor ... who do I like? ... who is a good guy? ... who does research I might enjoy? ... who? ... think of a research problem ... good enough for a doctoral dissertation? ... committee member selections ... more course work.

... must keep all professors happy ... make no enemies ... complain a little ... a lot ... about almost everything ... worry why he didn't like your 91 ... always try to do better ... school dance or study? ... have to relax sometime ... when? ... when do they let up? ... party at Dr. Edward's farm ... very nice people ... always a lot of fun ... championship volleyball games ...

... found a research project ... sure it's never been done before? ... yes ... no ... I'd better hit the library again ... no, never before ... committee approves ... get started ... test tubes are expensive! ... dogs too! ... experiments go wrong ... then right ... literature reviews ... write ... write ... write ...

... Comps!!! ... writtens ... endless questions in not enough time ... orals ... can I bear the anxiety? ... finally over ... two tons off my back ... work on dissertation ... approval ... final oral ... I'm an authority? ... the end? ... not by a mile! ...

... new and greater responsibilities ... teaching ... research ... new challenges ... again.

MEDICAL TECHNOLOGY
Medical Technology 1969

At the beginning of a long hot summer ... after three and four years of college ... we came and found medical technology to be ... few hours of daylight ... white uniforms of a "professional" length ... well worn white clinics ... navy blue sweaters ... no additional accessories ... microscopic eyestrain ... bridge games ... learning how to "stick" on lab partners ... happiness of getting blood in the tubes ... a clotting time that takes over an hour ... sticking the fifth donor ... discovery of a rare parasite egg ... remembering what media is used for culturing a specific organism ... forgetting the tourniquet ... blood cultures from right and left arms of the same patient ... upsetting can't gets ... attempting to be pleasingly firm with a screaming six year old ... ten patients to stick on a Saturday morning ... work on a Sunday for no pay ... getting your rubber glove stuck in the tourniquet of an isolation patient ... working on a leg without the rest of the body attached ... mechanical minds to reason with the machines ... white blood cell counts that won't check ... a "perfect" blood smear ... urinalysis with its "pleasing" odors ... hoping for a coffee break ... making sure you have the correct reagents, mixtures, dilutions ... one week of working nights ... answering numerous comprehensive questions ... and finally graduation and on our own.

The professional's professional.

You.

In pharmaceuticals, yesterday's information can be obsolete tomorrow. Men of medicine need someone who speaks their language to keep them up to date. Which is where you come in—the professional's professional. And, they'll listen when you talk because the Upjohn name means quality to them. Not only in products but in the men who represent them.

If you welcome a challenge in the pharmaceutical field and if you are the kind of man who wants to earn respect and responsibility in his profession, then Upjohn may be the place for you. Our policy of promoting from within can give you a career that grows with the industry. Our immediate personal benefits are most attractive.

For information about a career with Upjohn, write to L. C. Hoff, Director, Domestic Pharmaceutical Sales, The Upjohn Company, Kalamazoo, Michigan 49001.
